## Professional Summary

Final-year Computer Science and Engineering student with a CGPA of 8.94/10 and hands-on Software Development Engineer internship experience at Flipkart. Strong foundation in Java, Spring Boot, PostgreSQL, React, RESTful API development, Object-Oriented Programming, and Data Structures & Algorithms. Experienced in designing scalable backend modules, developing clean and maintainable software, and collaborating within Agile teams. Passionate about solving real-world engineering problems and building reliable SaaS products with a focus on performance, maintainability, and user experience. ServiceNow CSA and CAD Certified.

## Education

**Chalapathi Institute of Engineering and Technology** 2023 – 2027
*Bachelor of Technology in Computer Science and Engineering* *CGPA: 8.94/10*
**Intermediate (MPC)** 97.2%
**SSC** 99%

## Experience

**Software Development Engineer Intern** Jul. 2025 – Jan. 2026
*Flipkart*

- Developed scalable full-stack applications using Java, Spring Boot, React, TypeScript, Node.js, Express.js, and PostgreSQL.
- Designed reusable backend modules and RESTful APIs to support scalable application features.
- Designed normalized PostgreSQL database schemas for efficient, maintainable data management.
- Integrated frontend and backend components using Object-Oriented Programming principles and clean coding practices.
- Debugged application issues, validated APIs with Postman, and collaborated with engineering teams during Agile sprint cycles.
- Contributed production-quality software capable of supporting high-volume e-commerce workflows.

## Projects

**Digital Transaction Processing and Financial Operations Management System** | *Java, Spring Boot, Spring Security, PostgreSQL, JPA/Hibernate, Maven*

- Developed an enterprise-grade FinTech backend application for secure digital transaction processing.
- Designed RESTful APIs for wallet management, fund transfers, transaction processing, user management, and audit logging.
- Implemented Spring Security role-based authentication and authorization to protect sensitive financial operations.
- Applied a layered Controller–Service–Repository architecture to improve modularity, maintainability, and scalability.
- Designed PostgreSQL data models for secure transaction management and reliable financial record keeping.
- Implemented audit logging and transaction history to improve traceability and system reliability.

**Army Logistics and Operations Management System** | *React, TypeScript, JavaScript, HTML, CSS*

- Developed a responsive web application for logistics, personnel management, inventory tracking, and mission planning.
- Built reusable React components to improve maintainability and user experience.
- Designed intuitive dashboards supporting operational visibility and resource management.
- Implemented responsive interfaces to ensure accessibility across different screen sizes.

**ServiceNow-Based Employee Laptop Request Application** | Developed a scoped ServiceNow application to automate employee laptop requests with Basic/Advanced request typ
employees and IT managers. Implemented Client Scripts, UI Policies, ACLs, Business Rules, and Flow Designer to manage dynamic form behavior, validation, duplicate request prev
Configured custom tables, roles, modules, notifications, and automated request status transitions from submission through manager approval.

## Technical Skills

**Programming Languages:** Java, JavaScript, TypeScript, HTML5, CSS3
**Backend Technologies:** Spring Boot, Spring Security, REST APIs, JPA/Hibernate
**Frontend:** React
**Databases:** PostgreSQL, SQL
**Developer Tools:** Git, GitHub, Maven, Postman
**Core Computer Science:** Data Structures & Algorithms, Object-Oriented Programming, Operating Systems, DBMS, Agile, Problem Solving

## Competitive Programming

- Solved 3425+ Data Structures & Algorithms problems; CodeChef rating: 1298.
- Strong understanding of Arrays, Strings, Hashing, Linked Lists, Stacks, Queues, Trees, Graphs, Dynamic Programming, Recursion, Searching, and Sorting.

## Certifications

- Flipkart Software Development Engineer Internship Completion Certificate
- NPTEL Cloud Computing Certification
- ServiceNow CSA and CAD Certificates
